## Plain English explanation

This practice keeps data on you relating to:

- who you are
- where you live
- what you do
- your family, friends and employers
- your health details and medical history

(for more details see our Fair Privacy Notice to be found on our website <http://www.riverlodge-ringmersurgeries.co.uk> or please ask at Reception for a copy)

When registering for NHS care, all patients who receive NHS care are registered on a national database, this database is held by NHS Digital, a national organisation which has legal responsibilities to collect NHS data.

GPs share your care with others, predominantly within the surgery but occasionally with outside organisations. If your health needs require care from others outside this practice we will exchange with them whatever information about you that is necessary for them to provide that care. When you make contact with healthcare providers outside the practice but within the NHS it is usual for them to send us information relating to that encounter. We will retain part or all of those reports. Normally we will receive equivalent reports of contacts you have with non NHS services but this is not always the case.

Your consent to this sharing of data, within the practice and with those others outside the practice is assumed and is allowed by the Law.

People who have access to your information will only normally have access to that which they need to fulfil their roles and are bound by strict Confidentiality code.

You have the right to object to our sharing your data but in exceptional circumstances we have an overriding responsibility to do what is in your best interests. Please see below.

We are required by Articles in the General Data Protection Regulations to provide you with the information in the following 9 subsections.

1) <b>Data Controller</b> contact details	River Lodge and Anchor Field Surgeries
2) <b>Data Protection Officer</b> contact details	Dr Laith Butti, River Lodge Surgery, Malling Street, Lewes, BN7 2RD Tel: 01273 472233

## Privacy Notice – Direct Care, (routine care and referrals)

3) <b>Purpose</b> of the processing	Direct Care is care delivered to the individual alone, most of which is provided in the surgery. After a patient agrees to a referral for direct care elsewhere, such as a referral to a specialist in a hospital, necessary and relevant information about the patient, their circumstances and their problem will need to be shared with the other healthcare workers, such as specialist, therapists, technicians etc. The information that is shared is to enable the other healthcare workers to provide the most appropriate advice, investigations, treatments, therapies and or care.
4) <b>Lawful basis</b> for processing	<p>The processing of personal data in the delivery of direct care and for providers’ administrative purposes in this surgery and in support of direct care elsewhere is supported under the following Article 6 and 9 conditions of the GDPR:</p> <p><i>Article 6(1)(e) ‘...necessary for the performance of a task carried out in the public interest or in the exercise of official authority...’.</i></p> <p><i>Article 9(2)(h) ‘necessary for the purposes of preventative or occupational medicine for the assessment of the working capacity of the employee, medical diagnosis, the provision of health or social care or treatment or the management of health or social care systems and services...’</i></p> <p>We will also recognise your rights established under UK case law collectively known as the “Common Law Duty of Confidentiality”*</p>
5) <b>Recipient or categories of recipients</b> of the processed data	The data will be shared with Health and care professionals and support staff in this surgery and at hospitals, diagnostic and treatment centres who contribute to your personal care.
6) <b>Rights to object</b>	You have the right to object to some or all the information being processed under Article 21. Please contact the Data Controller or the practice. You should be aware that this is a right to raise an objection, that is not the same as having an absolute right to have your wishes granted in every circumstance.
7) <b>Right to access and correct</b>	You have the right to access the data that is being shared and have any inaccuracies corrected. There is no right to have accurate medical records deleted except when ordered by a court of Law.
8) <b>Retention period</b>	The data will be retained in line with the law and national guidance. <a href="https://digital.nhs.uk/article/1202/Records-Management-Code-of-Practice-for-Health-and-Social-Care-2016">https://digital.nhs.uk/article/1202/Records-Management-Code-of-Practice-for-Health-and-Social-Care-2016</a> or speak to the practice.
9) <b>Right to Complain.</b>	You have the right to complain to the Information Commissioner’s Office, you can use this link <a href="https://ico.org.uk/global/contact-us/">https://ico.org.uk/global/contact-us/</a> or calling their helpline Tel: 0303 123 1113 (local rate) or 01625 545 745 (national rate).

\* “Common Law Duty of Confidentiality”, common law is not written out in one document like an Act of Parliament. It is a form of law based on previous court cases decided by judges; hence, it is also referred to as ‘judge-made’ or case law. The law is applied by reference to those previous cases, so common law is also said to be based on precedent.

The general position is that if information is given in circumstances where it is expected that a duty of confidence applies, that information cannot normally be disclosed without the information provider's consent.

## **Privacy Notice – Direct Care, (routine care and referrals)**

In practice, this means that all patient information, whether held on paper, computer, visually or audio recorded, or held in the memory of the professional, must not normally be disclosed without the consent of the patient. It is irrelevant how old the patient is or what the state of their mental health is; the duty still applies.

Three circumstances making disclosure of confidential information lawful are:

- where the individual to whom the information relates has consented;
- where disclosure is in the public interest; and
- where there is a legal duty to do so, for example a court order.
